

# SmartCare as a platform for building synergies

Final Conference, 5<sup>th</sup> July 2016, Trieste  
Marco d'Angelantonio, HIM SA

# The 21 Regions participating

9 regions will deploy integrated health and social eCare services

13 committed regions participate to learn from experience of the deployment regions and go through a programme of service planning and scenario-based piloting

# Fortune is not blind

- A same core set of partners has won all the EU-funded deployment projects about ICT-enabled integrated care
  - HIM SA (Operational Management, Medical Coordination, Quality Assurance)
  - Empirica (requirements and use case definition, pathway and service design, cost-benefit analysis dissemination)
  - RSD (impact evaluation)

# Fortune is not blind

+

+

=

An opportunity for synergy that we cannot afford to miss

# An unprecedented opportunity

- 3 projects closely related with one another
- 22 deployment sites covering most of the EU from East to West, from North to South
- The largest data set ever built to extract evidence about the impact of ICT enabled Integrated Care
- Common tools:
  - RAIL (Risks, Issues, Actions, Lessons Learned)
  - MAST
  - ASSIST

## Synergy at work

- Predictive Modelling
- Change Management
- Mentoring School
- Cross-project analysis
